Overview

Introduction

The State Child Abuse and Neglect (SCAN) Policies Database compiles data on the definitions and policies that states use in their surveillance of child maltreatment, along with data on associated risk and protective factors. The SCAN Policies Database is funded by the Office of Planning, Research, and Evaluation in collaboration with the Children’s Bureau in the Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS). The project team is led by Mathematica in partnership with Child Trends.

Although federal law is the foundation of the child welfare system, states drive much of the structure of their own systems. The Child Abuse Prevention and Treatment Act (CAPTA) (42 U.S.C.A. § 5106g), as amended in 2010, identifies certain acts or behaviors as child maltreatment. States must comply with the broader CAPTA definitions, but within those parameters, states have their own legal definitions. State laws—and the policies states set to enforce these laws—have different definitions of child abuse and neglect and different policies for reporting and responding to child maltreatment.

Data on the definitions and related policies for child abuse and neglect—state by state and over time—can help researchers, analysts, policymakers, child welfare agencies, and others broaden their understanding of differences between states and how these differences may influence rates of child maltreatment.

Purpose

The project’s purpose is to review and compile information from selected child abuse and neglect definitions and related policies in all 50 states, the District of Columbia, and the Commonwealth of Puerto Rico, to create a database of those definitions and policies that can be used for analysis.

The database is a resource for researchers, analysts, and others who are interested in examining differences between states in their definitions and policies on child maltreatment and how they change over time. A primary benefit of these data is to allow researchers to link the analytic files to other data sources, such as the National Child Abuse and Neglect Data System (NCANDS), the Adoption and Foster Care Analysis and Reporting System (AFCARS), other federal and state administrative data, and survey data. When data from the SCAN Policies Database are linked with other data sources, the linked data can be used to answer important questions about how variations in states’ definitions and policies are associated with the incidence of child maltreatment, the child welfare system response, and ultimately, the safety and well-being of children.

Highlights

The scope of the SCAN Policies Database includes information about state definitions and policies related to child abuse and neglect for all 50 states, the District of Columbia, and the Commonwealth of Puerto Rico. The SCAN Policies Database 2019 represents data, collected,

reviewed, and verified between May 2019 and July 2020, and the data reflect the state definitions and policies for the calendar year 2019. The SCAN Policies Database 2021 represents data collected, reviewed, and verified between July 2021 and January 2022, and the data reflect the state definitions and policies for the calendar year 2021. The scope of the topics in the SCAN Policies Database includes states' definitions of child abuse and neglect as well as information about policies related to reporting, screening, and investigating child maltreatment. Key aspects of the child welfare systems' response and context are also included.

Access to database

The SCAN Policies Database can be accessed via <https://www.scanpoliciesdatabase.com> or the National Data Archive on Child Abuse and Neglect at <https://www.ndacan.acf.hhs.gov/>.

Introduction to the SCAN Policies Database

The State Child Abuse and Neglect (SCAN) Policies Database compiles data on the definitions and policies that different states use in their surveillance of child maltreatment, along with data on associated risk and protective factors. The SCAN Policies Database is funded by the Office of Planning, Research, and Evaluation in collaboration with the Children's Bureau in the Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS). The project team is led by Mathematica in partnership with Child Trends.

Background

Although federal law is the foundation of the child welfare system, states drive much of the structure of their own systems. The Child Abuse Prevention and Treatment Act (CAPTA) (42 U.S.C.A. § 5106g), as amended in 2010, identifies certain acts or behaviors as child maltreatment. States must comply with the broader CAPTA definitions, but within those parameters, states have their own legal definitions. State laws—and the policies states set to enforce these laws—have different definitions of child abuse and neglect and different policies for reporting and responding to child maltreatment.

Data on the definitions and related policies for child abuse and neglect—state by state and over time—can help researchers, analysts, policymakers, child welfare agencies, and others broaden their understanding of differences between states and how these differences may influence rates of child maltreatment.

Purpose

The project's purpose is to review and compile information from selected definitions and policies in all 50 states, the District of Columbia, and the Commonwealth of Puerto Rico (referred to throughout as states), to create a database of those definitions and policies (the SCAN Policies Database) that can be used for analysis.

The database is a resource for researchers, analysts, and others who are interested in examining differences between states in their definitions and policies on child maltreatment and how they change over time. A primary benefit of these data is to allow researchers to link the analytic files to other data sources, such as the National Child Abuse and Neglect Data System (NCANDS), the Adoption and Foster Care Analysis and Reporting System (AFCARS), other federal and state administrative data, and survey data. When data from the SCAN Policies Database are linked with other data sources, the linked data can be used to answer important questions about how variations in states' definitions and policies are associated with the incidence of child maltreatment, the child welfare system response, and ultimately, the safety and well-being of children.

Data access

Given the utility of the SCAN Policies Database when merged with datasets available through the National Data Archive on Child Abuse and Neglect (NDACAN), the SCAN Policies Database team and NDACAN have both agreed to disseminate the data. The SCAN Policies Database

can be accessed in the following ways: (1) using an interactive data feature to explore data on the SCAN Policies Database website, (2) downloading the full data file in comma-delimited format from the SCAN Policies Database website, or (3) downloading the full dataset from NDACAN in one of several formats compatible with common statistical software, including SAS, SPSS, Stata, and a tab-delimited format for import into spreadsheet programs and R. The contents of the full data files and data use documentation are identical across both sources.

The full data files available for download include the following files: (1) SCAN Policies Database 2019, (2) SCAN Policies Database 2021, and (3) an appended SCAN Policies Database file that includes data from 2019 and 2021 in one file. The appended SCAN Policies Database file is structured so the variable names are consistent across years, and each state has a row of data for each year of data collection. For variables that were new in 2021, a period (.) is used to indicate it was not collected in 2019. The appended data file allows data users to easily analyze data from both years of data collection and assess changes over time.

Data use resources

This data collection protocol has the questions used to guide the document review of state statutes and policy documentation for the 2021 round of data collection. There is a separate data collection protocol for the 2019 round of data collection. The questions and documentation in this protocol are used to collect data. Each question or response in the data collection protocol has a protocol number and variable name for the associated variable. Throughout the data collection protocol, the protocol numbers are listed first for each question or response, followed by the variable name that is depicted in red font within brackets. Appendix A provides a glossary of key terms.

Several additional data use resources are available to support users of the SCAN Policies Database:

- **Data user's guide:** The guide has detailed information about the data set, including the process used to collect and review the data, the scope of information included in the data set, guidance on using the data, such as how to link the data with other data sources, and notes about specific topics. The data user's guide has four appendices. Appendix A provides a glossary of key terms. Appendix B summarizes the decisions made on the scope and variables to include in the SCAN Policies Database after a data quality assessment. Appendix C describes corrections made to selected data elements in the 2019 SCAN Policies Database based on information from the 2021 review process. Appendix D summarizes the changes to data between the 2019 and 2021 data sets that reflect changes to state laws and policies during this time period. There is one data user's guide that is updated with and applicable for all rounds of data collection for the SCAN Policies Database.
- **Codebook:** The codebook provides information about each variable in the data set, including variable names, labels, definitions, protocol number, variable type, and frequencies. The codebook has four appendices. Appendix A provides a glossary of key terms. In the SCAN Policies Database 2019 codebook, Appendix B summarizes the corrections made to selected data elements in the 2019 SCAN Policies Database, based on information from the 2021 review process. In the SCAN Policies Database 2021 codebook,

Appendix B summarizes the changes to data between the 2019 and 2021 data sets that reflect changes to state laws and policies during this time period. Appendix C contains supplemental notes that are important for accurately interpreting and using the data. Appendix D is a comprehensive list of all state statutes and policy documentation sources used to collect data for the SCAN Policies Database for each state, District of Columbia, and Puerto Rico. There are separate codebooks to summarize the data from each round of data collection.

This data collection protocol, along with the other data use resources, can be found on the SCAN Policies Database website (<https://www.scanpoliciesdatabase.com/data-use-resources>) or from NDACAN (<https://www.ndacan.acf.hhs.gov/>).

Technical assistance

Users with general inquiries and those who access the SCAN Policies Database from the SCAN Policies Database website (<https://www.scanpoliciesdatabase.com>) who need technical assistance can submit a request to SCANPoliciesDatabase@mathematica-mpr.com.

Other data users who access the SCAN Policies Database from NDACAN (<https://www.ndacan.acf.hhs.gov/>) can receive technical assistance by submitting a request to NDACANSupport@cornell.edu. NDACAN staff provide free user support for the data sets that they distribute. They can address issues such as importing data to an analysis program, clarifying variable labels, or solving problems with the data as delivered. NDACAN staff cannot, however, replace the role of a statistical analyst or a faculty advisor. Before writing to NDACANSupport@cornell.edu for assistance with the data, please review the support resources provided on the User Support page of NDACAN's website (<https://www.ndacan.acf.hhs.gov/user-support/user-support.cfm>).

Scope

The scope of the SCAN Policies Database includes information about state definitions and policies related to child abuse and neglect for all 50 states, the District of Columbia, and the Commonwealth of Puerto Rico. The SCAN Policies Database 2019 data represents data, collected, reviewed, and verified between May 2019 and July 2020, and the data reflect the state definitions and policies for the calendar year 2019. The SCAN Policies Database 2021 represents data collected, reviewed, and verified between July 2021 and January 2022, and the data reflect the state definitions and policies for the year 2021. The scope of the topics in the SCAN Policies Database includes states' definitions of child abuse and neglect as well as information about policies related to reporting, screening, and investigating child maltreatment. Key aspects of the child welfare systems' response and context are also included. The scope of the 2021 SCAN Policies Database includes all data collected for the first round of data collection in 2019, plus a few additional variables on new topics or policies. These topics were included based on their relevance to help inform improved understanding of states' child maltreatment incidence and related risk and protective factors. Topics were selected based on input from research experts and stakeholders from federal, state, and local agencies and were informed by a pilot data collection and review process. Detailed information about the process is in the SCAN Policies Database Data User's Guide.

Content

The content in the SCAN Policies Database is organized by six domains. The codebook, data collection protocol, and data file are also organized by these domains. The protocol numbers begin with a letter prefix which identifies the domain for each variable. The six domains with the identifying protocol number prefix are listed below.

Domain	Question prefix
Definitions	D
Reporting	R
Screening	S
Investigation	I
Child welfare response	W
Child welfare system context	C

Updates for 2021

The SCAN Policies Database for 2021 includes any changes to data elements since 2019, which will allow users to identify whether a definition or policy changed for a state during this period. A summary of data elements that changed from 2019 to 2021 is in Appendix D in the data user's guide.

The SCAN Policies Database for 2021 includes a few updates to response categories for existing data elements and incorporates a few new topics that were added based on recommendations from experts. Any updates to the 2021 database with regard to new questions or response categories, are identified by an asterisk (*) in the protocol. The new data elements are organized within the current domain structure for the database. The new topics and associated data elements include the following:

Domain	Topics/Data Elements
Definitions	<ul style="list-style-type: none"> • State definition of fatalities due to child abuse or neglect • State definition of near-fatalities due to child abuse or neglect • Whether the state conducts child fatality reviews or other similar case reviews for child fatalities due to child abuse or neglect • Whether the state conducts case reviews or other similar reviews for near-fatalities due to child abuse or neglect
Reporting	<ul style="list-style-type: none"> • Whether the state requires all notifications of substance-exposed newborns to be submitted as reports of child maltreatment • Whether the state accepts reports of risk without an allegation of child maltreatment
Screening	<ul style="list-style-type: none"> • Whether the state requires or recommends a degree in social work or a related field for staff who conduct screening
Investigation	<ul style="list-style-type: none"> • Whether the state requires or recommends a degree in social work or a related field for staff who conduct investigations • Whether an investigation determination can result in an "inconclusive" finding

Domain	Topics/Data Elements
Child welfare response	<ul style="list-style-type: none">• Whether the state requires or recommends a degree in social work or a related field for case management staff• Whether the child welfare agency has staff roles or functions specifically dedicated to addressing disproportionality, equity, or both and how these staff are involved in the child welfare process

State Identifying Information

For each state we provide the following information:

Field	Description
1 {State}	State abbreviation
2 {StateFIPS}	State Federal Information Processing Standard (FIPS) code
3 {RegionCode}	Census region code
4 {Verified}	State verified coding of information
5 {DocumentsConfirmed}	State confirmed documents reviewed
6 {Year}	State definitions and policies for calendar year
N/A {Version}	Version of data released for 2019 data

Domain D: Definition of child maltreatment

D1. Does the state's definition of child maltreatment include the following types of maltreatment (whether the type of maltreatment is specified in the definition or the definition includes the resulting harm or injuries)?

	Yes = 1	No = 0
D1_1 {Def_PhysicalAbuse} Physical abuse		
D1_2 {Def_Punishment} Excessive corporal punishment		
D1_3 {Def_SexAbuse} Sexual abuse		
D1_4 {Def_Emotional} Emotional maltreatment		
D1_5 {Def_Neglect} Neglect		
D1_6 {Def_InadequateClothing} Inadequate clothing		
D1_7 {Def_InadequateShelter} Inadequate shelter		
D1_8 {Def_Malnourishment} Malnourishment, inadequate food		
D1_9 {Def_MedicalNeglect} Medical neglect, inadequate medical care		
D1_10 {Def_FailuretoThrive} Failure-to-thrive		
D1_11 {Def_EducationalNeglect} Educational neglect		
D1_12 {Def_Abandonment} Abandonment		
D1_13 {Def_InjuriousEnvironment} Injurious environment, likelihood of harm to child's health, physical well-being		
D1_14 {Def_DrugLab} Drug lab. Child present within structure where methamphetamine is being created		
D1_15 {Def_InadequateSupervision} Inadequate supervision failure to meet parent or caretaker responsibilities		
D1_16 {Def_DrugAlcMisuse} Drug or alcohol misuse. Parental drug or alcohol misuse causing harm to child		
D1_17 {Def_PrenatalExposure} Prenatal exposure to drugs or alcohol		
D1_18 {Def_IllicitSubstance} Illicit substance. Illegally providing a controlled substance to a child		
D1_19 {Def_HumanTrafficking} Human trafficking, involuntary servitude, sexual servitude		
D1_20 {Def_GenitalMutilation} Female genital mutilation		
D1_21 {Def_ShakenBaby} Shaken baby syndrome, abusive head trauma		
D1_22 {Def_FailureToProtect} Failure to protect. Failure to protect from harm		
D1_23 {Def_DV} Domestic violence. Exposure to domestic violence		
D1_24 {Def_FactitiousDisorder} Factitious disorder by proxy		
D1_25 {Def_InstitutionalAbuseNeglect} Institutional abuse/neglect		
D1_99 {Def_Other} Other definition		
D1_99_other {Def_OtherSpecify} Other – specify (open-text response)		

The following three open-text response variables indicate whether a subtype of maltreatment is considered part of the statutory definition for a broader category of child abuse, neglect, or other type of maltreatment.

- D1_100 {Def_Subtype_Abuse} Subtypes of maltreatment considered abuse
- D1_101 {Def_Subtype_Neglect} Subtypes of maltreatment considered neglect
- D1_102 {Def_Subtype_Other} Subtypes of maltreatment considered other than abuse or neglect

D2. Does the state’s definition of maltreatment include actual harm and/or risk of maltreatment? (Check all that apply.)

	Yes = 1	No = 0
D2_1 {DefMal_InflictHarm} Inflicts harm		
D2_2 {DefMal_RiskOfHarm} Imminent danger or substantial risk of harm		

D3. {DefMal_Harm_VaryByType} Does the state’s definition of maltreatment of actual harm and risk of maltreatment vary by type of maltreatment?

- No..... 0
- Yes..... 1

[ASK IF ‘YES’ IN D3]

D3_1 {DefMal_Harm_VaryByTypeSpecify} If the state’s definition of maltreatment of actual harm and risk of maltreatment varies by type of maltreatment, please include a comment specifying this difference.

D4. What is the type of harm or injury specified in the state’s definition of maltreatment? (Check all that apply.)

	Yes = 1	No = 0
D4_1 {DefHarm_Physical} Physical harm, including death, bodily injury, and/or impairment of physical condition		
D4_2 {DefHarm_Emotional} Emotional harm, including impairment of mental or emotional condition		
D4_3 {DefHarm_Environment} Harmful environment or conditions		
D4_4 {DefHarm_NotSpecified} Type of harm or injury not specified		
D4_99 {DefHarm_Other} Other		
D4_99_other {DefHarm_OtherSpecify} Other – specify (open-text response)		

D5.{DefHarm_VaryByType} Does the state’s definition of maltreatment regarding the type of harm or injury vary by type of maltreatment?

- No..... 0
- Yes..... 1

*New question or response category for SCAN Policies Database 2021.

[ASK IF 'YES' IN D5]

D5_1 {DefHarm_VaryByTypeSpecify} If the state's definition of maltreatment regarding the type of harm or injury varies by type of maltreatment, please include a comment specifying this difference.

D6.{DefPerp} Is type of perpetrator identified as part of the state's definition of child maltreatment?

No..... 0
 Yes 1

[ASK IF 'YES' IN D6]

Identify types of perpetrators: (Check all that apply.)

	Yes = 1	No = 0	Logical skip = 66
D6_1 {DefPerp_Parent} Parent			
D6_2 {DefPerp_Guardian} Guardian			
D6_3 {DefPerp_Caregiver} Caregiver/Caretaker			
D6_4 {DefPerp_FamilyMember} Family member/Parent paramour			
D6_5 {DefPerp_HouseholdMember} Household member			
D6_6 {DefPerp_PersonResponsible} Person responsible for child			
D6_7 {DefPerp_AnyAdult} Any adult			
D6_99 {DefPerp_Other} Other type			
D6_99_other {DefPerp_OtherSpecify} Other – specify (open-text response)			

[ASK IF 'YES' IN D6]

D7. {DefPerp_VaryByType} Does the type of perpetrator identified as part of the state's definition of child maltreatment vary by type of maltreatment?

No..... 0
 Yes 1

[ASK IF 'YES' IN D7]

D7_1 {DefPerp_VaryByTypeSpecify} Please specify how the identification of perpetrators in the state's definition varies by type of maltreatment.

D8. **{DefAge}** Is an age of the child specified as part of the definition?

- No..... 0
- Yes 1

[ASK IF 'YES' IN D8]

D8_1 **{DefAge_Specify}** Specify age at which definition applies:

- Under age 18 1
- Under age 18 with variability under 18 2
- Under age 18 and up to 21 if in the care of the agency 3
- Under age 18 with variability over 18 4
- Under age 18 with variability under 18 and over 18 5
- Under age 18 and up to 21 if in the care of the agency and variability over 18 6
- Under age 18 and up to 21 if in the care of the agency and variability under 18 7
- Under age 19..... 8

D9. **{DefAge_VaryByType}** Does the age of the child specified as part of the definition vary by type of maltreatment?

- No..... 0
- Yes 1

[ASK IF 'YES' IN D9]

D9_1 **{DefAge_VaryByTypeSpecify}** If the state’s definition of maltreatment regarding age of child varies by type of maltreatment, please include a comment specifying this difference.

D10. Does the definition of maltreatment exempt any of the following:

	Yes = 1	No = 0
D10_1 {Exempt_FinancialIssues} Financial inability to provide for a child		
D10_2 {Exempt_Discipline} Physical discipline as long as it is reasonable and causes no bodily injury to the child		
D10_3 {Exempt_SafeHaven} Newborn relinquished or abandoned in accordance with infant safe haven laws		
D10_4 {Exempt_SubstanceExposed} Newborn with positive test for controlled substance as a result of parent’s medical treatment		
D10_5 {Exempt_Religious} Parent relies on spiritual or religious forms of medical treatment		
D10_99 {Exempt_Other} Other exemptions		
D10_99_other {Exempt_OtherSpecify} Other – specify (open-text response)		

*New question or response category for SCAN Policies Database 2021.

[ASK IF D10_3 IS SELECTED]

What are the conditions regarding the safe haven exemption? (Check all that apply.)

	Yes = 1	No = 0
D10_3_1 {SafeHaven_Location} Must leave child at specific safe haven locations or with a designated provider		
D10_3_2 {SafeHaven_Parent} Child must be left by parent or parent's agent		
D10_3_3 {SafeHaven_Age} Child must be left by certain age		
D10_3_4 {SafeHaven_NoIntentReturn} No intent to return for child		
D10_3_5 {SafeHaven_ChildUnharmed} Child left unharmed		
D10_3_99 {SafeHaven_Other} Other		
D10_3_99_other {SafeHaven_OtherSpecify} Other – specify (open-text response)		

[ASK IF D10_3_3 IS SELECTED]

D10_3_3_other {SafeHaven_AgeSpecify} Specify age at which condition applies

- 72 hours old or younger 1
- 7 days old or younger 2
- 10 days old or younger 3
- 14 days old or younger 4
- 21 days old or younger 5
- 28 days old or younger 6
- 30 days old or younger 7
- 31 days old or younger 8
- 45 days old or younger 9
- 60 days old or younger 10
- 90 days old or younger 11
- 1 year old or younger 12

D11. How does the state define fatalities or deaths caused by child abuse or neglect? (Check all the apply.)*

	Yes = 1	No = 0
D11_0 {FatalitiesDefine_Not} Not specified/not defined		
D11_1 {FatalitiesDefine_Injury} Injury from abuse or neglect caused death		
D11_2 {FatalitiesDefine_Abuse} Abuse or neglect was a contributing factor in the death		
D11_3 {FatalitiesDefine_Care} Death of child currently or previously engaged in child welfare, including those with an investigation, open case, or are in custody/foster care		
D11_99 {FatalitiesDefine_Other} Other		

*New question or response category for SCAN Policies Database 2021.

	Yes = 1	No = 0
D11_99_other {FatalitiesDefine_OtherSpecify} Other – specify (open-text response)		
D11_88 {FatalitiesDefine_Unknown} Unknown [EXCLUSIVE]		

D12. {FatalitiesReview} Does the state conduct case reviews with a child fatality review team or similar review process for fatalities caused by child abuse or neglect? *

No.....	0
Yes, reviews are required of all or some cases	1
Yes, reviews can be conducted but are not required	2
Unknown	88
Other	99
D12_99_other {FatalitiesReview_OtherSpecify} Other – specify (open-text response)	

D13. How does the state define near-fatalities or near-deaths caused by child abuse or neglect? (Check all the apply.)*

	Yes = 1	No = 0
D13_0 {NearFatalities_Not} Not specified/not defined		
D13_1 {NearFatalities_General} General reference to a serious or critical condition/injury that is life-threatening with a substantial risk of death		
D13_2 {NearFatalities_Specific} Specific injury or specific medical treatment/intervention		
D13_2_other {NearFatalities_SpecificSpecify} Specify injury or medical treatment/intervention (open-text response)		
D13_99 {NearFatalities_Other} Other		
D13_99_other {NearFatalities_OtherSpecify} Other – specify (open-text response)		
D13_88 {NearFatalities_Unknown} Unknown [EXCLUSIVE]		

D14. {NearFatalitiesReview} Does the state conduct case reviews with a review team or similar review process for near-fatalities caused by child abuse or neglect?*

No.....	0
Yes, reviews are required of all or some cases	1
Yes, reviews can be conducted but are not required	2
Unknown	88
Other	99
D14_99_other {NearFatalitiesReview_OtherSpec} Other – specify (open-text response)	

*New question or response category for SCAN Policies Database 2021.

Domain R: Laws or policies related to reporting child maltreatment

R1. **{CentralizedReporting}** Does the state have centralized reporting (one statewide hotline) for making reports of child maltreatment?

- No..... 0
- Yes 1
- Other 99
- R1_99_other **{CentralizedReporting_Specify}** Other – specify (open-text response)

[ASK IF 'NO' IN R1]

R1_2. **{DecentralizedReporting}** How is reporting decentralized?

- Each county or region has its own reporting hotline 1
- Some counties or regions have own reporting hotline 2
- During some times of the day, counties or regions have their own reporting hotline ... 3
- Other 99
- R1_2_99_other **{DecentralizedReporting_Specify}** Other – specify (open-text response)

R2. What is the standard (regarding knowledge or reasonable cause) for reporting child maltreatment? (Check all that apply.)

	Yes = 1	No = 0
R2_1 {ReportStandard_Known} Known abuse and neglect		
R2_2 {ReportStandard_ReasonCause} Reasonable cause to believe a child was abused and neglected		

R3. **{UniversalMandatedReporting}** Does the state have universal mandated reporting for all adults?

- No..... 0
- Yes 1

*New question or response category for SCAN Policies Database 2021.

[ASK IF 'NO' IN R3]

R3_1. For each type of individual listed below, please identify those who are included in the state's definition of mandated reporter. (Check all that apply.)

Types of mandated reporters specified in the state's laws or policies:

	Yes = 1	No = 0
R3_1_1 {Reporter_FosterParent} Foster parents		
R3_1_2 {Reporter_TeacherSchool} School teachers, administrators, or other staff		
R3_1_3 {Reporter_BusDriver} School bus drivers or other transportation staff		
R3_1_4 {Reporter_AfterSchool} Before/after school program staff		
R3_1_5 {Reporter_ChildcareStaff} Child care staff		
R3_1_6 {Reporter_CampStaff} Camp counselors, directors, or administrators		
R3_1_7 {Reporter_Coach} Athletic coaches or staff		
R3_1_8 {Reporter_MedicalDental} Medical or dental professionals

Domain C: Context information regarding child welfare system

C1. {CWSsystemAdmin} Does the state operate a state-administered or county-administered child welfare system?

- State-administered 1
- County-administered 2
- Hybrid (partially administered by the state and partially administered by the counties) 3

C2. {ConsentDecree} Does the state operate under a legal consent decree or other court-ordered monitoring?

- No..... 0
- Yes 1

[ASK IF 'YES' IN C2]

C2_1. {ConsentDecree_Specify} Specify the name of the court case/consent decree.

APPENDIX A

Glossary of Key Terms

This page has been left blank for double-sided copying.

Appendix A: Glossary of Key Terms

This glossary defines several key terms used in the SCAN Policies Database. The terms are organized alphabetically within each of the six topic domains, which reflect the organizational structure of the data file, codebook, and data collection protocol. This glossary is not an exhaustive list of all terms used in the database. Instead, it highlights several terms that may be unfamiliar to data users.

The SCAN Policies Database codebook (<https://www.scanpoliciesdatabase.com/data-use-resources>) also provides a resource for users to understand the definitions of specific variables. For more information about these or other child welfare terms, please refer to the glossary produced by the Child Welfare Information Gateway (<https://www.childwelfare.gov/glossary/>).

Alternative or differential response: An approach used by some child protection or child welfare agencies to provide different options to respond to reports of child abuse and neglect, other than an investigation to assess whether child maltreatment occurred. This response can be referred to as an alternative response, a differential response, or a dual-track or multiple-track response system. Different factors are used to determine eligibility for alternative or differential response. Such factors often include assessment of the level of risk for the child and the family's need for support services.

Centralized reporting: A child maltreatment reporting method, usually a hotline, designed to facilitate reporting to one entity that will accept reports of suspected child abuse and neglect from all locations across a state (see *reporting*).

Consent decree: A legal order that results from a lawsuit against the child welfare agency. Consent decrees often have requirements for the child welfare agency to implement corrective actions and monitor improvements related to the reason for the lawsuit.

Cultural broker: A person who draws on established community relationships and provides culturally-sensitive brokering, support, and advocacy to families to who are involved with or at risk of being involved with the child welfare system. Cultural brokers also help identify and address concerns about disproportionality and disparities in the child welfare system.

Factitious disorder by proxy: A type of child maltreatment, also known as Munchausen by proxy or medical child abuse, that results when a parent or caretaker misrepresents information, simulates an illness, or seeks medical treatment for a child who is not really sick with the alleged illness.

Failure to thrive: A type of child maltreatment that is a medically diagnosed condition in which a child fails to develop physically. Also referred to as nonorganic failure to thrive. This condition is typically indicated by a child's weight, height, and motor development falling significantly below age-appropriate ranges with no medical or organic cause.

Guardianship: A legal permanency option granted by the court when the parental rights of the child are transferred to an adult nonparent to serve as the child's caretaker.

In-home services: Services provided to children and families who were reported for alleged child maltreatment and determined as needing supports to address the children's safety needs. The children are not in foster care or in the custody of the child welfare agency. These services

can be provided to children who are able to remain at home, without needing out-of-home or foster care, or to children who have been reunified with their families and returned home from being in out-of-home or foster care.

Institutional abuse or neglect: A type of child maltreatment that occurs while the child is in an institution, facility, or agency that is responsible for the child's welfare, such as foster care, out-of-home care, or any public or private residential home.

Investigation: A response by the child protection or child welfare agency that gathers information to determine whether the reported child maltreatment occurred. The investigation assesses whether child maltreatment occurred or whether the child is at risk of child maltreatment and results in a formal determination or disposition, such as whether or not the report of child maltreatment was substantiated (see *substantiation*).

Kinship guardianship: State laws and policies that allow for a family member, or "kin", to become the legal permanent guardian for a child who has been placed in out-of-home or foster care (see *guardianship*).

Mandated reporting: A state law requiring certain people to report known or suspected child abuse and neglect. Some states require all people to report child maltreatment (see *universal mandated reporting*), while other states identify specific professionals as mandated reporters (see *reporting*).

Reporting: The process in which a person who knows of or suspects child abuse or neglect notifies authorities, such as child protection or child welfare agencies, of the alleged child maltreatment and provides information that is known about the alleged child victim, perpetrator, and child maltreatment.

Safe haven: A policy where a parent can voluntarily relinquish a child, usually a newborn, to lawfully designated locations, such as hospitals, fire stations, or other safe settings. When a child is safely surrendered in this way, the parent is protected from criminal prosecution. The voluntary relinquishment of a child that follows the safe haven policy requirements may be exempt from the state's definitions of child maltreatment.

Screening: The process in which child protection or child welfare agency staff review information received from a report of child maltreatment to determine whether there is sufficient information to accept or "screen-in" a report to pursue next steps, such as opening an investigation or referring the case for an alternative response. The screening process typically considers whether there is sufficient information about a variety of factors, including whether the report provides enough information to identify the alleged child victim and whether the alleged child maltreatment meets the state's definitions for child abuse or neglect.

Shaken baby syndrome: A type of child maltreatment that involves a serious head or brain injury resulting from violent shaking or impacting of the head of an infant or small child, which can result in death or permanent neurologic disability. Also known as abusive head trauma or shaking impact syndrome.

State- and county-administered child welfare systems: The framework for administration of child welfare services and programs, which can be administered at the state or county levels. State- administered systems are more centralized, while county-administered systems are decentralized and can have more variability across counties.

Subsidized adoption: State program that provides financial assistance or subsidies for caregivers to adopt children from foster care who have special needs.

Subsidized guardianship: State program that provides financial assistance or subsidies for caregivers who take legal guardianship of children (see *guardianship*).

Substantiation: A decision made at the conclusion of an investigation of a report of alleged child maltreatment, when there is sufficient and credible evidence that the child maltreatment occurred or that there is risk of child maltreatment. The term for a substantiated investigation decision can vary by jurisdiction. It can also be referred to as a founded, indicated, or confirmed report of child maltreatment (see *investigation*).

Tribes: The original or first inhabitants of North America and their communities, including Indigenous, First Nation, American Indian, Indian, Native American, Native, and Alaska Native communities. The project did not limit this definition to only federally recognized tribes, so it is inclusive of all tribes based on each states' definitions and policies.

Universal mandated reporting: A state law that requires all people, regardless of profession, to report known or suspected child maltreatment (see *reporting*).
